DEVELOPER STORY

The Missing Piece.

Essence Homes has been years in the making, decades perhaps, because we became who we are the moment you decided you were looking for us.

What we do is so natural that it's timeless. More than build homes, we create places to in which to live and love, to grow, to be with family. There is beauty in that.

A modern aesthetic now shapes what you see, forming subtly each habit and characteristic. Technology, art and imagination release hidden qualities, special talents that were before unexpressed. Invisible walls make the privacy of inside and the community outside both belong to the same thing. Here is a piece of the world, with lived experiences creating a truly unique individual.

Walk through the neighbourhood, open the door, step over the entrance, and take a seat. This is the moment that has been years in the making.

Welcome back to yourself. The essence of what we do, of why we do it, is you. That's all a home needs. It has always been so.
